REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach in combination as claimed a calibration module for connection between a device under test (DUT) and a network analyzer having a multi-state circuit within the calibration module including three ports for connecting the DUT and analyzer. Switches are connected to each port such that a first pole of the first switch, a first pole of a second switch, and a first pole of a third switch are all connected together through transmission lines. A transmission path from any port of the multi-state circuit can be created to any of the other two ports.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter Benson whose telephone number is (571) 272-2227. The examiner can normally be reached on Mon to Fri 6:30 AM to 4:00 PM.
